What does it mean to be **Maniac**?

People have created different rules and systems over the centuries. Those who had to keep up with this system were forced to abandon their unique aspects and adopt an average life and become ordinary.

While embracing an ordinary life was acceptable to most people,
it was never enough for maniacs!

Being maniac; defying the restriction of freedom, rejecting to become ordinary and monotonous, going against the system and its rules; it is a movement created by people who are aware of their uniqueness and believe that the rare is attractive.

If you want to rebel against the monotony brought by the system,
welcome to the club!
